Come...learn and build relationships

Each year, Breast Cancer affects our mothers, our sisters, our friends...maybe ourselves.

Can you minimize the risk of getting Breast Cancer by nutrition and lifestyle? Do quality screening and diagnostics really make a difference? How do you advocate for yourself to get the best care? What do you say when you are face to face with a woman who is confronting the diagnosis of breast cancer?

Designed for women of all ages and backgrounds, this event will prepare, teach and encourage us as we learn about prevention, detection/ screening and what to do when the diagnosis has been confirmed.

Be moved by inspiring stories from a panel of breast cancer survivors. Learn how to be your own best advocate. Uncover what you have always known – we do need each other and can help those we love with our prayers, knowledge and support.

Come with your mother, daughter, sister, friend, co-worker...just come.

*Weaving Wellness
Into Your Life*
